Why Guess About It-When You Can Know About It?

Suppose a guide said-

"This way there's a safe and pleasant road to your destination, with no risks or troubles on the way," and-

"That way there's a road that a good many have stalled on and turned back from, but you may get through."

Which would you take?

Postum is a thoroughly agreeable and satisfying meal-time drink, and you're sure that it's perfectly safe for health. Coffee contains drug qualities which disturb and harm the health of many.

Postum or coffee? Which road?

Why guess when you can know?

Postons comes in two forms: Instant Postum (in tins) made instantly in the cap by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by belling for 20 minutes. Sold by all grocers.
